

# Tiling Estimate Template

Printable worksheet for tile areas, tile sizes, waste, tiles, and boxes. Calculate your exact amount at [homematerialcalc.top/calculators/tile-calculator/](http://homematerialcalc.top/calculators/tile-calculator/)

## Room-by-room worksheet

Room	Area sq ft	Tile size	Waste %	Tiles	Boxes
Totals					

## Common tile sizes

Tile size	Sq ft per tile	Planning note
12 x 12 in	1.00	Common square floor or wall tile
12 x 24 in	2.00	Large rectangular tile
18 x 18 in	2.25	Large square tile
24 x 24 in	4.00	Large format tile
6 x 24 in	1.00	Plank-look tile

Tile count estimate: divide area by tile area, round up, add waste, then round up again. Use 10% waste for simple straight layouts; use 15-20% for diagonal layouts, patterns, borders, fragile tile, or many cuts. Quantities only - no live prices or labor quotes.

**Your project** — fill in and take to the store:

Total tile area (sq ft): \_\_\_\_\_ Waste factor: \_\_\_\_\_ %

Tile size: \_\_\_\_\_ x \_\_\_\_\_ in Tiles per box: \_\_\_\_\_

Total tiles with waste: \_\_\_\_\_ Boxes to buy: \_\_\_\_\_

Tile / supplier / product line: \_\_\_\_\_

Setting materials to check by label: thinset, grout, spacers, trim, backer board
